Gaylord, MI 49734

Agenda will qualify for PEM C.E.U's

NO-SPILLS Committee

The Northern Michigan Waterways Hazardous Material Spill Planning Committee, commonly known as "NO-SPILLS", was established in 1990 to serve as a coordinating, educational organization for potential hazardous materials spills into the waterways of our great lakes.

The initial focus was to address issues as they pertained to spills on the Great Lakes. Two years later we included the inland waterways. We work very closely with the United States Coast Guard and the Environmental Protection Agency.

The Committee is comprised of Federal, State, and local Emergency Management Agencies, tribal entities, elected and appointed officials, LEPC's, Business, Industry, and Media. Membership is not limited.
